

THE SACRAMENTO BEE

Superior California Vital Statistics

Index to 1940-1949 Siskiyou County records from the
“Superior California Vital Statistics” articles in *The Sacramento Bee*

Linda E. Freeman
2015-2023

People featured in the entries have their surnames in ALL CAPS. Other names mentioned in the entries are included in the index, but not in all caps. Their relationship to the main person in the entry is given, and if their surname is different than the main entry, the relevant SURNAME is given as well. If any town in Siskiyou County is mentioned in the entry, the entire entry is indexed.

Places in Siskiyou County do not have the county or state listed. A comma does not separate the city and state in order to avoid confusing commas.

Since births only list “son” or “daughter,” their names [in brackets] are taken from the California Birth Index or Siskiyou County Birth Index (this won’t be done for all records). When two places are given in birth records, the first is where the baby was born (used for baby’s record) and the second is where the parents were living at the time (placed in parents record). If only one place is listed, I assume this means the parents lived where the baby was born, and so that place is also used in the parents’ index entry. NOTE: I have noticed several instances where the birth date is off by one day.

In the case of marriages, the first place listed is where they were married, and the second place listed is where they lived at the time of marriage. The SURNAME of the marriage partner is also given. Marriage licenses give the age of each person, but that is not included in this index.

When two places are given in death records, the first is where the person died and the second is where they were living at the time. I highly recommend searching this document for desired surnames, as the SURNAME of the main entry is listed at the end of entries that do not have the same surname as the main entry.

The date of the paper is given in parentheses at the end of the listing. Abbreviations:

B for Births
ME for Marriage Engagements
MD for Marriage Declarations
ML for Marriage Licenses
M for Marriages
A for Annulments
SM for Separate Maintenance
DV for Divorces
D for Deaths
